Welcome To Model Rocketry... 1980

Year after year, for over two decades now, we at Estes Industries have produced the most advanced, up-to-date model rockets of the Space Age. Models from the real world of space travel and from dramatic science fiction productions like Star Wars (pages 29-31).

And now again... for 1980... the line-up of new products is more exciting than ever! From Walt Disney's outer space extravaganza "The Black Hole" (pages 10 & 34), to our new high performance, two-stage Sea Strike "D" (page 40), to a new and larger NASA Space Shuttle Orbiter (page 19), to the exotic World Federation Star Probe (page 40). And from

the science-fiction era of

"The Galactic Pirates" comes the courageous Patrol Cruiser Excalibur and the dreaded Dragonship 7 (page 35).

Plus there's the all-new Estes "Super Long Delay" D11-9 Engine (page 53) and our new Fin Alignment Guide (page 54) in addition to scale models of the Russian SS-1B SCUD tactical missile (page 19) and the advanced U.S.A.F. air-to-ground Cruise Missile (page 48). Twenty-five new products to add to the already complete line of flying model rockets, outfits, and accessories available from Estes.

The Eighties promises greater-than-ever adventures in space and I'm glad you're with us to enjoy the most exciting hobby on Earth. Beginner or expert, I extend my personal welcome to you all.

Sincerely,

Vern Estes

All model rocket kits in this catalog require assembly unless otherwise indicated. Some of these flying model rockets can be put together and be ready to launch in minutes. Others with their sophisticated aerodynamics and wealth of detail are more challenging. The Skill Level numbers given in each kit description recommend the skills and experience necessary for a rocketeer to successfully complete the kit. Generally speaking, it is not wise to jump skill levels. Unless you are an extremely experienced modeler, you should complete a kit of Skill Level 1 before attempting Skill Level 2... and you should build a Skill Level 2 rocket before moving on to Skill Level 3... and so on.

HERE'S HOW TO USE YOUR ESTES CATALOG.

- 1 Name of the kit.
- 2 Skill Level number recommends the general skill and experience necessary for a rocketeer to successfully complete the kit. Skill Level 1 kits are suggested for beginners, Skill Level 2 for intermediate rocketeers, and so on to Skill Level 5, Expert Rocketeer.
- 3 Special features and additional kit information.
- 4 Specifications including length, diameter, and weight, in both English and Metric Equivalents, plus shipping weight for the kit.
- 5 Recommended engines for flying the rocket. Engines are listed from least powerful to most powerful. Also, indicates which engine should be used for the first flight.
- 6 Catalog number for kit which should always be used when ordering.
- 7 Price of the kit.
- 8 The background color on each page reflects the appropriate Skill Level color for the kits shown. (See chart below) All kits in this catalog are grouped by Skill Level.

All prices in this catalog are subject to change without notice.

MODEL ROCKETRY SAFETY CODE

1. Construction — My model rockets will be made of lightweight materials such as paper, wood, plastic and rubber, without any metal as structural parts.
2. Engines — I will use only pre-loaded factory-made model rocket engines in the manner recommended by the manufacturer. I will not change in any way nor attempt to reload these engines.
3. Recovery — I will always use a recovery system in my model rockets that will return them safely to the ground so that they may be flown again.
4. Weight Limits — My model rocket will weigh no more than 453 grams (16 ozs.) at liftoff, and the engine will contain no more than 113 grams (4 ozs.) of propellant.
5. Stability — I will check the stability of my model rockets before their first flight, except when launching models of already proven stability.
6. Launching System — The system I use to launch my model rockets must be remotely controlled and electrically operated, and will contain a switch that will return to "off" when released. I will remain at least 16 feet from any rocket that is being launched.
7. Launch Safety — I will not let anyone approach a model rocket on a launcher until I have made sure that either the safety interlock key has been removed or the battery has been disconnected from my launcher.

8. Flying Conditions — I will not launch my model rockets in high winds, near buildings, power lines, tall trees, low flying aircraft, or under any conditions which might be dangerous to people or property.

9. Launch Area — My model rockets will always be launched from a cleared area, free of any easy to burn materials, and I will only use non-flammable recovery wadding in my rockets.

10. Jet Deflector — My launcher will have a jet deflector device to prevent the engine exhaust from hitting the ground directly.

11. Launch Rod — To prevent accidental eye injury I will always place the launcher so the end of the rod is above eye level or cap the end of the rod with my hand when approaching it. I will never place my head or body over the launching rod. When my launcher is not in use I will always store it so that the launch rod is not in an upright position.

12. Power Lines — I will never attempt to recover my rocket from power lines or other dangerous places.

13. Launch Targets & Angle — I will not launch rockets so their flight path will carry them against targets on the ground, and will never use an explosive warhead nor a payload that is intended to be flammable. My launching device will always be pointed within 30 degrees of vertical.

14. Pre-Launch Test — When conducting research activities with unproven designs or methods, I will, when possible, determine their reliability through pre-launch tests. I will conduct launchings of unproven designs in complete isolation from persons not participating in the actual launching.

As a member of the Estes Model Rocketry Program, I promise to faithfully follow all rules of safe conduct as established in the above code.

Signature _____

MODEL ROCKET FLIGHT SEQUENCE

Recommended Launch Area:

In choosing a launch area, the larger the better. Football fields, parks, and playgrounds are great. The chart below shows the smallest recommended sizes. Remember, the larger the launch area, the better your chance of recovering your rocket. Choose a large field away from power lines, tall buildings, tall trees, and low flying aircraft.

MAKE SURE THE AREA WHERE YOU SET UP YOUR LAUNCHER IS CLEAR OF OBSTRUCTIONS AND HAS NO DRY WEEDS OR HIGHLY FLAMMABLE MATERIALS.

Engine Types	Minimum Launch Site Dimension*	Maximum Altitude
1/4A - 1/2A	50 Feet	200 Feet
A	100 Feet	400 Feet
B	200 Feet	800 Feet
C	400 Feet	1600 Feet
D	500 Feet	1800 Feet

*Minimum Launch Site Dimension for Circular Area is Diameter in Feet, and for Rectangular Area is Shortest Side in Feet.

Unless otherwise stated, all the model rocketry kits in this catalog are hobby kits requiring assembly. Launch system, engines, glue, and finishing supplies are not included. Recommended for ages 10 to adult. Adult supervision suggested for those under 12 years of age when flying model rockets.

Estes model rocket engines are safety and contest certified by the National Association of Rocketry (N.A.R.) and meet the specifications and requirements set forth by the National Fire Protection Association.

"THIS IS WHERE TO BEGIN"

DER BIG RED MAX

Deluxe Model Rocketry Outfit

Virtually everything you need to get started in Estes Model Rocketry in a "BIG" way. Includes the Big Red Max Rocket...the ultra advanced Big Foot Launch Control System... Engines... Launching Supplies... and the "Alpha Book of Model Rocketry."

At a moderate price you get practically everything needed for assembly, lift-off, and recovery. (Batteries, glue and finishing supplies are not included.)

Experience the fun of building and the thrill of flying the Big Red Max rocket. This big bird, over two feet long, is easy-to-assemble with die-cut balsa fins, quick-release engine mount, huge plastic nose cone, and "far-out" Red Max decal sheet. Excellent performance with giant 18" orange and white parachute.

Big Foot Launch Control System (page 56) is capable of launching all the rockets in this catalog and is especially recommended for launching Maxi-Brutes and other large rockets. Futuristically designed launch platform features rugged plastic construction and enormous "two foot print" for maximum launch pad stability. Requires four inexpensive "D" cell batteries for power (not included). Launch pad includes blast deflector plate, 1/8" x 36" two-piece launch rod, and adjustable swivel mount to compensate for wind direction.

Launch control unit features: quick assembly plus safety key, continuity check light, ignition button and 15 feet of launch cable.

Flight Pak is complete with three high performance, N.A.R. safety-certified engines (two "B" type and one "C" type engines) plus parachute recovery wadding and "Solar" rocket igniters for your first series of exciting flights.

YOUR BIG FOOT LAUNCH CONTROL SYSTEM WILL LAUNCH EVERY ROCKET IN THIS CATALOG!

THE ALPHA III STARTER KIT

Skill Level 1
Recommended
for Beginners

FEATURES EASY-TO-ASSEMBLE ALPHA III ROCKET PLUS RUGGED, SPACE-AGE DESIGNED PORTA-PAD LAUNCHER AND HEAVY DUTY SOLAR LAUNCH CONTROLLER!

If you intend to make a real hobby of Estes Model Rocketry, this ALPHA III Starter Kit gives you great reliability with instant flexibility. The Alpha III kit is a proven performer for flight-after-flight enjoyment. You'll be able to use this launch system with a standard 1/8" launch rod for most rockets, and the 3/16" Maxi-Rod for giant "D" powered flying models.

In addition, the PORTA-PAD fits to your specifications giving you the option of distance as well as height. You have portability too, with the SOLAR LAUNCH CONTROL SYSTEM as it requires only 4 alkaline AA batteries for power (not included). Advanced shape allows for perfect hand-held control and is easily assembled in minutes.

KIT INCLUDES:

ALPHA III Rocket with bright plastic one-piece fin unit and nose cone for quick assembly. Realistic Decal sheet with water soluble decals for easy application. Brightly colored 12" Recovery Parachute with shroud lines and shock cord. PORTA-PAD launch platform made of heavy duty plastic with strong girder construction, yet easy to disassemble and extremely portable. Features 36" long x 1/8" diameter standard launch rod and Blast Deflector Plate to protect the Porta-Pad.

THIS KIT-If Sold Separately-Would Cost Approximately \$22.05. YOU SAVE \$6.10

- Solar Launch Controller, extremely lightweight and futuristically designed, requiring only 4 alkaline AA batteries (not included) for ease of transport.
- Parachute Recovery Wadding.
- Solar Rocket Igniters.
- Three N.A.R. Safety Certified Rocket Engines.
- Alpha Book of Model Rocketry, the complete beginner's tech manual and guide.

Challenger-1

Flying Model Rocketry Starter Kit

This high performance Challenger-1 rocket is very easy-to-assemble with bright orange plastic nose cone and fin unit. Features quick-finish decor with precolored body tube and realistic roll pattern decals. No painting required! This Challenger-1 rocket can be launched over and over again and can attain altitudes over 1,000 feet! Returns via 12" recovery parachute. You need only replace the rocket engine, igniter, and recovery wadding for each new flight.

Challenger-1 Launch Control System features futuristically designed hand-held launch controller with arming lamp, safety key, launch button, and 15 feet of launch cable with micro igniter clips. Plus sleekly designed launch pad with blast deflector plate and 1/8" X 36" two-piece launch rod. Entire system sets up quickly for launch and disassembles easily for compact storage.

Flight Pak includes three N.A.R. safety certified model rocket engines, parachute recovery wadding, and high reliability Solar Igniters for three exciting flights.

Special Bonus - New "Beginner's Tech Manual" filled with model rocketry data to get you started off right. (Ship. wt. 1 lb.)

RUSSIAN SS-1C SCUD-B

Skill Level 2
Impressive 1/20.4 scale model of the Russian medium-range surface-to-surface missile. Scud-B is the NATO code name designated for this missile which is deployed by all the armies of the Warsaw Pact countries. The actual vehicle can carry either a nuclear or conventional warhead and utilizes storable liquid propellants for a range of up to 200 miles. This realistic kit is easy-to-assemble with die-cut balsa fins, scale plastic nose cone, quick-change engine mount and detailed 3-color missile marking decal sheet. Build it sport-scale or true-scale. A superb flyer and perfect military model for the beginner or advanced rocketeer. Dramatic recovery with big 18" parachute.

PHOTON DISRUPTOR

Skill Level 2

Equip your star fleet with this sophisticated scale missile from the 23rd century. Designed primarily as a mass conversion weapon to overload the defensive screens of an enemy vessel, the actual Photon Disruptor may also be programmed as an interceptor missile, a proximity space mine, or a space distress signal. Exact size, speed, range, and destruct radius of this vehicle are classified. Photon Disruptor uses impulse power unit and guidance system for launch from planetary surface. Kit features operational status detailing decal and comes complete with 12" parachute. Assembly and operation are made easy with plastic nose cone, die-cut balsa parts, and quick-release engine mount.

Odyssey

Skill Level 2

This unique interstellar spacecraft is conceived to perform a variety of space rescue, exploratory, or intruder intercept missions. Odyssey's modular configuration permits rapid pre-launch preparation to flight status. Impulse power unit jets from rear lift-off from planetary launch site. Its two-man crew and engineering section are then accelerated to nearlight velocities for rendezvous and space rescue operations. Our designer's version includes die-cut balsa fins, 18" dia. recovery parachute and two-color rescue vehicle decal. Quick-release engine mount and super-detailed plastic nose section complete the exotic styling of this advanced space craft.

STAR WARS™

"ROBOT HERO"

R2-D2™

Skill Level 2

Own your very own STAR WARS R2-D2 robot! Destined to become the most famous movie robot of all time, our model is 1/5 actual size and actually flies. Artoo "pops his top" in normal model rocket fashion to deploy an 18" dia. recovery parachute for landing on the planet of your choice. Kit features include a molded plastic body dome and body skirt, a precisely detailed 4-color body wrap-on, quick-change engine mount and stabilizer leg-fins. This cantankerous 'droid is certain to be everybody's favorite at your launch site or on your display shelf.

Specifications

Height 9.0" (22.8 cm) Diameter 3.744" (95.09 mm)

X-WING Fighter™

Skill Level 2

Scale model of the T-65 X-Wing Fighter piloted by Luke Skywalker during the Rebel Forces attack on the Imperial Death Star.

Although simple to construct this model retains all the realism and detail of the actual models used in the film. Great for demonstrations with flights over 300 feet and 12" recovery 'chute. Highly detailed with authentic 3-color decals makes it a spectacular display model tool! Kit includes die-cut balsa wings, plastic fuselage, and quick-release engine mount. Small balsa fins have been added for Earth flight.

Specifications

Length 10.9" (27.6 cm) Diameter 1.4" (33.6 mm)
Wing Span 8.9" (22.5 cm) Weight 3.5 oz. (99.2 g)

X-WING Fighter™ Flying Model Rocketry Outfit

Skill Level 2

Features: Scale model of T-65 X-Wing Fighter (p. 30) piloted by Luke Skywalker during the Rebel Forces attack on the Imperial Death Star. Highly detailed, but easy-to-assemble. Spectacular flights over 300 feet with 12" recovery parachute. Plus, BIG FOOT Launch Control System (p. 65) capable of launching all Estes models including Maxi-Brutes. Futuristically designed launch platform features rugged plastic construction and enormous "two-foot print" for maximum launch pad stability. Includes blast deflector plate, 1/8" x 36" two-piece launch rod, swivel mount that is adaptable to either 1/8" or 3/16" launch rods, and legs which remove easily for compact storage. This launch control unit is newly engineered for simple, quick assembly and features safety key, continuity check light, ignition button and 15 feet of launch cable. Uses 4 inexpensive "D" cell batteries (not included). STAR WARS Flight Pak features two B4-2 and one C6-3 Model Rocket Engines, plus Solar Igniters, Recovery Wadding and the Alpha Book of Model Rocketry. Ship. Wt. 3 lb. (Batteries, paint and glue are not included.)

ESTES ASTROCAM 110™

AERIAL CAMERA

Model Rocketry Outfit

With Delta II Launch Vehicle

Skill Level 2
FEATURES:

*The AstroCam 110, model rocketry's most advanced aerial camera. Shoots sharp, crisp, clear color 110 photos one per flight... from hundreds of feet above. Easy-to-assemble and simple to operate.

*Delta II Launch Vehicle features two-color decals, 12" parachute, and special plastic fin-unit for smooth and stable flights, time-after-time. All parts are pre-colored... no painting required!

*Big Foot Launch System with giant two-foot print for maximum launch pad stability, 1/8" launch rod, blast deflector plate, and rugged girder construction. Plus hand-held launch controller with continuity check light, safety key, ignition button, and 15 feet of launch cable.

*Requires 4 inexpensive "D" size alkaline batteries for power (not included).

*Flight Pak includes three C6-7, high performance Estes Rocket Engines plus Solar Igniters, Recovery Wadding and the Alpha Book of Model Rocketry.

*Uses Kodak Kodacolor 110 color print film, ASA 400, or equivalent - not included. Film and developing are available locally.

Cat. No. 1410 ... **Only \$35.00**

Ship. Wt. 3 lbs.

Requires four "D" cell batteries for power (not included).

The AstroCam 110 uses the Delta II Launch Vehicle or Challenger II Model Rocket with special stabilizing fin-units for best photo results. Camera is not sold separately. Other launch vehicles are not recommended.

(Film, glue and finishing supplies are not included.)

Actual AstroCam 110" photo of Three Mile Island facility, Allentown, PA, taken by Scott Pearce, Westchester, PA.

Take Incredible "Color" Photos From Hundreds of Feet in The Sky!

Film and Developing Available Locally!

Skill Level 2
Experience the thrill and excitement of taking incredible color aerial photographs from hundreds of feet in the sky. As your rocket reaches apogee and begins its descent to Earth, the ejection charge of your rocket engine trips the AstroCam 110's 1/500th sec. shutter and "snap"... you have just taken a dramatic aerial photograph from far above. The "new" AstroCam 110 uses high speed Kodak Kodacolor 110 color print film ASA 400 or equivalent (not included). Film and developing are available locally.

Special features include easy, quick-assembly, high quality acrylic lens, molded plastic housing, glass first surface mirror, and high performance aerodynamic design for minimum drag and maximum altitude.

Simple to operate and shoots one, crisp, full color 110 photo per flight. Launch with B8-5 B8-7 B14-5 B14-7 C6-5 or C6-7 engine.

Delta II launch vehicle features specially designed, pre-colored plastic fin-unit for consistently smooth and stable flights. Plus white body tube, quick-release engine mount and great looking, two-color kit decals with dual roll patterns. No painting required! Returns to Earth via 12" dia. parachute. (Launch System, engines, glue, and film are not included.)

SKILL LEVEL 3 INTERPLANETARY VOYAGERS

U.S.S. ATLANTIS

Skill Level 3

Patrolling the distant outposts of our galaxy are super-fast starships like the USS Atlantis. This multi-mission star cruiser is designed for patrol, escort, transport, and fleet battle operations. Star flight capability is provided by two giant aft propulsion units. The unique, multi-level flight deck allows massive planet-side operations from synchronous or standard planetary orbit. In addition to superior speed and maneuverability, its powerful weaponry enables it to deal single-handedly with most alien vessels. Kit includes colorful decals, die-cut balsa fins, plastic nose cone, and quick-release engine mount. Excellent performance with impressive 12" parachute recovery for flight-after-flight enjoyment.

NIKE AJAX

Skill Level 3

The first super-sonic anti-aircraft missile, the Nike Ajax, was developed to defend large cities and industrial complexes against enemy bomber attack. Actual vehicle has a range of 30 to 50 miles and an effective altitude capability of approximately 60,000 feet at a speed of more than 1500 miles per hour.

Real vehicle is boosted by a solid propellant rocket which drops away at a predetermined height as a sustaining liquid propellant motor cuts in. Our 1/24 to 1/32 scale model comes complete with authentic U.S. Army decal and realistic detailing. Kit includes 18" parachute recovery, die-cut tail parts, and quick-release engine mount.

LTV Scout

Skill Level 3

The Scout is a four-stage, solid-propellant launch vehicle used for a variety of space missions including orbital, probe and re-entry by the United States and an impressive list of European nations. Since its first mission in 1960, Scout has been the launch vehicle for more than 60 missions, holding the record for consecutive successes among all NASA launch vehicles. We have chosen to scale the Italia version, known for its famous satellite which discovered the existence of "black holes" in space. This model is extremely detailed with many plastic parts and realistically decal with 2 color decals. Other features include modified plastic fins and adapter sections, quick-release engine mount and the 18" parachute recovery.

SKILL LEVEL 3 MULTI ROC

Skill Level 3
Really exciting multi-purpose sport flyer featuring large payload section, high performance parasite glider, and two stage booster power. Can be flown in eight different flight configurations. Payload section is perfect for small telemetry or insect cargos. Parasite glider releases from upper stage rocket at apogee and is capable of glide times of more than 30 seconds. Booster section features pop-and-go staging plus tumble recovery. Additional features include die-cut balsa fins, plastic nose cone, quick-release engine mount, and attractive kit decals. Reliable recovery via 12" dia. parachute.

German V-2

Skill Level 3

This giant scale model is a replica of the ground-to-ground ballistic missile developed at Peenemunde before and during World War II. This 1/19th scale Maxi-Brute features "D" engine power, detailed plastic nose cone, dual 24" parachute recovery and pre-shaped fins. Nose cone fits BT-101 tube. Model requires 3/16" launch rod for best lift-off performance. This historic reproduction will be the attention-getter at your launch site, and a handsome display model for your desk or bookshelf. Historical background is also included with instructions.

NEW!

BOEING A.L.C.M. CRUISE MISSILE

Skill Level 4

The Boeing A.L.C.M. Cruise Missile is America's newest weapon system. Designed to be launched from a large aircraft like the Lockheed C-5 Galaxy or the B-52 Bomber, the Cruise Missile can deliver a nuclear warhead with pin-point accuracy to its target. Once launched, the wings and fins deploy and a ram-jet engine cuts-in providing high speed power to the missile. Sophisticated radar interfaced with an advanced on board computer guides the Cruise Missile at true-top altitudes over enemy terrain. The Estes near-scale version of this vehicle is a challenging model with blown-molded plastic body, die-cut plastic fins & wings, and injection molded plastic parts. Also featured is a

four-color decal sheet, 12" parachute recovery, and wings which swing-out for display.

Complete instructions and rocket igniters are included with each package of Estes model rocket engines.

*Series 11 engines have semi-cord-burning grain with large propellant burning area for high initial thrust with short thrust duration. New "B8" type engines replace previous "B14" type engines.

All engines listed on this page are 2.75 in. (6.99 cm) long and 0.690 in. (1.75 cm) dia.

*Indicates "NEW" Rocket Engine. Shipping weight of each package of engines is approximately 4 oz.

IMPORTANT - IMPORTANT - IMPORTANT -

All the rockets shown in this catalog can be flown over and over again. Simply replace the engine, igniter, and recovery wadding for each new flight.

ASTRON IGNITERS: Easy to use for reliable ignition every time. Recommended for launch systems using 6 to 12 volt car batteries or 12 volt lantern batteries. Installation procedure featured on engine instructions. (Patent No. 3,363,559). Shipping weight 1 oz. (Not recommended for Solar Launch Controller or Big Foot Launch Systems).

Cat. No. 2225 6 for \$.95

SOLAR IGNITERS: Add increased reliability at lift-off with Estes "high performance" Solar Igniters. This uprated igniter is designed especially for the Solar Launch Controller (#2300) and Big Foot Launch Control System (#2208). Features easy engine installation and is suitable for all Estes launch control systems. Unique four-element design makes it the most dependable igniter made. Shipping weight 1 oz.

Cat. No. 2301 6 for \$.95

RECOVERY WADDING: Provides protection from hot ejection gases for parachutes and streamers. Each package contains approximately 75-4-1/2" squares—enough wadding for up to 25 flights. Instructions for installation are included in each package. Shipping weight 6 oz.

Cat. No. 2274 \$1.00

Complete instructions and rocket igniters are included with each package of Estes model rocket engines.

"D" engines are 2.75 in. (6.99cm) long and 0.945 in. (2.40cm) dia.

Shipping weight of each package of "D" engines is approximately 5-1/2 oz.

NOTES:

- ① Pound - seconds (Figures shown are maximum.)
- ② Newton - seconds (Figures shown are maximum.)
- ③ Or Single Stage Engine if used in very light rocket.

ESTES **FIN ALIGNMENT GUIDE**

Position and glue fins quickly and easily. Fits body tubes up to BT-101. Designed for either 3 or 4 finned rockets, aligning fins at 90° or 120° to each other. Easily assembled with slip-together plastic parts. Adjusts quickly with plastic fin position clips.

Ship. Wt. 3 lbs.

Cat. No. 2231

Big Foot™

MODEL ROCKET LAUNCH CONTROL SYSTEM

The all new Estes Big Foot launch control system is capable of launching all Estes models including Maxi Brutes. Futuristically designed launch platform features rugged plastic construction and enormous "two foot print" for maximum launch pad stability. Includes blast deflector plate, 1/2" x 36" two piece launch rod, adjustable swivel mount to compensate for wind direction which is adaptable to either 1/8" or 3/16" launch rods, and six legs which remove easily for compact storage. This launch control unit is newly engineered for simple, quick assembly and features safety key, continuity check light, ignition button and 15 feet of launch cable. Uses inexpensive "D" cell batteries and Estes Solar Igniters #2301 (not included). Shipping weight 2 lbs. Cat. No. 2208

Rocket not included

"Designed for the Big Ones!"

Requires four "D" cell batteries for power (not included). Use alkaline type for best results.

Only

\$15.95

TRACKING EQUIPMENT

AltiTrak™ Altitude Finder

Skill Level 1

Track your rocket to the top of its flight and instantly lock-in its altitude on the "new" AltiTrak altitude finder. Displays exact model rocket altitude on metric scale—no guessing! (Conversion table included for feet.) A precision instrument made of durable plastic. Easy-to-assemble and looks like futuristic laser pistol. How high did it go? Now you'll know! Ship. wt. 15 oz.

Cat. No. 2232 **Only \$6.00**

HOW HIGH DID IT GO?

PREDICTED ALTITUDE COMPUTER

The Estes Pocket Size Altitude Computer enables any rocketeer to predict his model rockets altitude in a matter of seconds. Just move the center slide in a simple procedure for fast, accurate results. Three color calculator comes complete with instructions. Ship. wt. 3 oz. Cat. No. 9015

\$1.45

SOLAR LAUNCH CONTROLLER

MODEL ROCKETRY'S MOST ADVANCED LAUNCH SYSTEM

The Solar Launch Control System should be standard equipment in your range box. This futuristically designed launch control unit requires only 4 alkaline AA pen light batteries for power. Advanced shape allows for perfect hand held control. Unit is easily assembled in minutes and features safety key, continuity check lamp, ignition button, and 15 feet of lightweight launch cable. System is constructed of durable "non-breakable" plastic. Micro-clips are presoldered. Use with Estes Solar Igniters (#2301). (Batteries not included.) Length 6.13" (15.57 cm); Height 2.38" (6.05 cm); Width 1.44" (3.66 cm); Weight (with batteries) 7 oz. (199 g).

Shipping weight 8 oz.

Cat. No. 2300 \$7.95

PORTA-PAD PLASTIC LAUNCH PAD

Space-age designed, the Porta-Pad is rugged enough to take the stress of countless launchings, even with the big Estes "D" engines, yet is lightweight and compact enough for easy carrying and storage. Strong, girder construction. Orange plastic legs snap off for storage in range box. Friction grip secures rod firmly. Accommodates standard 1/8" rod (#2234) or heavy-duty 3/16" Maxi-Rod I (#2239). Tilt adjustment allows you to compensate for wind.

Shipping weight is 1 lb. 8 oz.

Cat. No. 2217 \$7.00

Astron Launch Control System

Newly redesigned Launch Controller features futuristic design and provides greater reliability with simplified assembly. Bright orange plastic controller gives realistic ignition system appearance.

Recommended for 6 or 12 volt power sources. Perfect Launch Controller for your 12 volt car battery. No need to remove battery from car, simply connect launch system's battery clips to terminals. Features include arming lamp, safety key, launch button, battery clips, micro-clips, and 18 feet of launch cable.

Shipping weight 12 oz.

Cat. No. 2212 \$7.00

The Solar Launch Controller (#2300) or the Astron Launch Control System (#2212) are the recommended launch control systems for use with the Porta-Pad (#2217).

Here's The Perfect Launch Pad For Most All Your Birds!

Rocket Not Included

LAUNCH SUPPLIES

(Cont'd on page 60.)

1/8" DIA. TWO-PIECE LAUNCH ROD: Handy collapsible two-piece rod for portable launchers. Pieces slip together to make a 36" long rod. Base rod has a diameter of 1/8". Shipping weight 6 oz. Cat. No. 2234 \$.95

MICRO-CLIPS: Equip your launcher with the best. Spring-loaded solid steel clips connect lead wires to igniters. Easy-to-clean and highly conductive with flat contact surfaces. Only 1.1 inches long. Attach to leads with or without solder. Ship, wt. 1 oz. Cat. No. 2247 2 for \$.85

3/16" DIA. MAXI-ROD: Perfect for launching Maxi-Brute kits and other large rockets. Fits Porta-Pad Tripod (#2217) and Big Foot™ Launch Pad (#2208). Two-piece construction. 36" long, light-weight aluminum launch rod. Collapsible for easy storage. Ship, wt. 12 oz. Cat. No. 2239 \$1.95

RECOVERY SUPPLIES

PARACHUTE KITS: Get the best in parachute recovery! Two-color printed plastic 'chute give maximum visibility with easy-trak design. Lightweight, durable, and easily folded. These 'chutes are only 0.0075" thick, allowing the most material to be packed into the least body space. Each kit comes complete with 'chute material, tape discs, and shroud lines. Shipping weight 2 oz.

Cat. No.	Description	Parachute Diameter	Net Weight	Price Each

SHOCK CORD: Specify width when ordering. Shipping weight 1 oz.
1/8" wide: Net wt. 0.039 oz., Cat. No. 2276 \$.45
1/4" wide: Net wt. 0.078 oz., Cat. No. 2277 \$.50

Also 36" long for greater stretch on those larger birds.
1/8" wide: Net wt. 0.078 oz., Cat. No. 85744 \$.55

TAPE DISCS: Fasten shroud lines to plastic parachutes or streamers with these 3/4" dia. pressure sensitive Tape Discs. In sheets of 6 discs, Shipping weight 1 oz. Cat. No. 2294
4 sheets of 6 for \$.95

STREAMER MATERIAL: Bright orange, flame-resistant crepe paper streamers. In 7 1/2-foot lengths, enough for two to eights streamers. Specify size when ordering.
Shipping wt. 1 oz.
1" wide — Net wt. .092 oz. Cat. No. 2341 ... 6 for \$1.70
2" wide — Net wt. .184 oz. Cat. No. 2343 ... 6 for \$1.95

SCREW EYES: Specify size when ordering. Shipping wt. for 6 eyes, 1 oz.
LARGE EYE: 1" long; .04 oz. Cat. No. 2280 ... 6 for \$.90
SMALL EYE: 3/4" long; .03 oz. Cat. No. 2279 ... 6 for \$.85
EXTRA SMALL EYE: 5/8" long; .01 oz. Cat. No. 2281 ... 6 for \$.75

SHROUD LINES: Build reliable, durable, custom parachutes with this strong, hard surface shroud line cord. Comes in 70 yard spools. Shipping weight 5 oz. Cat. No. 2340 \$1.00

TAPE STRIPS: For top strength, low bulk and low weight, fasten shroud lines with these 1/4" x 3/4" tape strips, in sheets of 12 strips. Shipping weight 1 oz. Cat. No. 38412
6 sheets of 12 for \$1.00

SNAP SWIVELS: For quick changes and reduced tangling in your recovery systems, use these tiny 1" long snap swivels. Net weight .01 oz. Shipping weight for 12 swivels, 1 oz. Cat. No. 2292
12 for \$1.35

A DANISH COMPANY

ENTER THE DESIGN OF THE MONTH CONTEST.

YOUR DESIGN COULD WIN YOU A
\$75.00 MERCHANDISE CERTIFICATE

Have an idea for an original design? Enter our Design of the Month competition today. Your design could be published in an issue of Model Rocket News, plus win you \$75.00 in FREE merchandise from this catalog. Simply follow the rules below. Keep those entries coming, and maybe you'll be our next winner!! **GOOD LUCK!!**

DESIGN OF THE MONTH RULES

1. All entries become the property of Estes Industries and cannot be returned.
2. Employees of Estes Industries and members of their immediate families are not eligible.
3. Any type of model rocketry design can be entered (rockets, boost-gliders, launching or recovery devices, etc.).
4. Designs should be new, original, and different, but they also need to be workable. The goal is to develop something new that other rocketeers can build and use successfully, too.
5. Entries will be judged on practicality, originality, neatness, completeness, and clarity. All plans must be flight tested and proven.
6. Your design entry should include a parts list and any instructions or diagrams you feel would be helpful.
7. Please do not send the actual model as it cannot be returned.

8. Photos of entries are greatly appreciated, but are not required.
9. You may send as many entries as you like.
10. New contest every month.
11. All designs reaching Estes Industries during the calendar month will be entered in that month's competition. (Date of receipt, not postmark, will determine the month in which a design will be entered).
12. If two or more exceptional entries are received during any month, the judges may, at their discretion, make identical first-place awards or give additional honorable mentions.
13. Designs should be sent to the Design of the Month Editor, Estes Industries, Inc., Penrose, Colorado 81240. However, all plans sent to us which are not specifically addressed to another contest or department will be automatically placed in the Design of the Month Competition.
14. Each month the designer of the winning entry will receive a certificate entitling him to \$75.00 in merchandise and an award certificate suitable for framing. Award winners will be notified by mail.

Build Your Own Design With Estes Quality Model Rocket Parts

Once you have constructed several model rocket kits and have become familiar with the basic Estes Technical Reports you will no doubt have a variety of ideas for unique designs of your own. In order to select the proper parts for your original design it is important for you to understand our system of parts description numbers.

Nearly all matching Estes parts have the same series description number. Those which do not feature an additional explanation as to where they can be used. Normally, parts listing the same series description number will be interchangeable with each other. For instance, a #20 body tube (BT-20) would mate with a #20A balsa nose cone (BNC-20A), a #20C payload section (PS-20C), or a #20B engine block (EB-20B). Further, a #2060 tube adapter (TA-2060) will adapt a BT-20 to a BT-60, and a #5055 centering ring (AR-5055) will center a BT-50 within a BT-55. By using balsa or paper adapters almost any combination of parts can be joined together. For ordering, be sure to use both the catalog number and the series description number (name).

ORIGINAL DESIGN
(Shows how a variety
of matching parts can
be used together)

EMERGENCY REPAIR KIT

A must for every range box. Features many essential materials for "on-the-spot" repair of your model rockets.

Ship. wt. 8 oz. Cat. No. 2233

Only \$2.00

Includes:
Sandpaper
Screw Eyes
White Glue Packet
Launch Rod Safety Cap
Universal Safety Key
Recloseable Pouch

70164	NB-60	\$.95	1.595"	1-1/2"	BT-60	.190 4

CONSTRUCTION SUPPLIES

COMPETITION PAYLOAD: How high can your rocket lift an ounce of lead? This 1 oz. payload weight, 3/4" in diameter, is certified for NAR competition. Ship. wt. 2 oz.
Cat. No. 38292 ... 2 for \$1.45

DOWELS:

Extra strong, lightweight seasoned maple dowels.
Ship. Wt. 5 oz.
1/8" x 18"
Cat. No. 32056 ... 8 for \$.80
1/12" x 12"
Cat. No. 32058 ... 8 for \$.80

LAUNCH LUGS:

Super-strength laminated launch lugs feature mylar plastic core for durability, paper outer layer for easy gluing. Inside diameter 5/32", fit 1/8" rod.
Ship. Wt. 1 oz.
1-1/4" long:
Cat. No. 2321 ... 12 for \$1.00
2-3/8" long:
Cat. No. 2322 ... 10 for \$1.15
8" long:
Cat. No. 2326 ... 4 for \$1.20
MAXI-ROD LAUNCH LUG:
2" long, fits 3/16" dia. rod.
Cat. No. 2328 ... 4 for \$.85

ENGINE HOLDER:

Flat spring steel design gives easy installation and low drag. Recommended for sport and demonstration models built from BT-5, and BT-20. For Regular and "D" Engines.
Ship. Wt. 1 oz.
Cat. No. 3140 ... 3 for \$1.20
For Mini-Engines.
Ship. Wt. 1 oz.
Cat. No. 3142 ... 3 for \$.95

Join More Than 25,000 Estes Rocketeers Getting The Most Out Of Model Rocketry. BECOME A MEMBER OF THE

estes aerospace CLUB today!

You'll discover membership in the Estes Aerospace Club opens up a whole new world of model rocket activities. Membership is permanent as long as you remain an active Estes Rocketeer. Your membership kit includes **VIPER ROCKET** — Club's Exclusive High Performance Design.

MEMBERSHIP CERTIFICATE — Suitable for framing.
CLUB EMBLEM — Official iron-on patch. As you progress to higher skill levels, you receive additional iron-on "thrust" bars.

DECAL SHEET — Identify your rockets as part of the EAC fleet!
RANGE BOX STICKERS — Multi-purpose stick-ons for your range equipment.

EAC STATIONERY — Distinctive stationery for your special notes and letters.

MODEL ROCKETRY TECHNICAL MANUAL — Includes information on construction techniques, finishing, stability tracking, recovery systems, multi-staging, and boost gliders plus much, much, more.

COPY OF MODEL ROCKET NEWS — Features free plan designs, technical articles, contest, rocketeer contributions and more.

EAC PRODUCTS BULLETIN — Special offers for kits and products available ONLY to members.

JOIN NOW! BECOME AN ESTES AEROSPACE CLUB ROCKETEER TODAY!!

Simply Check the EAC box on your order form and include your payment.

Shipping wt. 9 oz.

Regular EAC membership (#1447). **\$4.00**

SPECIAL CONTESTS, UNIQUE PRODUCT ANNOUNCEMENTS, AND E.A.C. BONUS OFFERS ARE EXCLUSIVE BENEFITS AVAILABLE ONLY TO CLUB MEMBERS. IF YOU ARE NOT ALREADY A MEMBER, YOU ARE URGED TO JOIN NOW!

EAC Thrust Bar Achievement Program Awards Members With Iron-on Thrust Bars & Achievement Certificates As They Progress From One Skill Level To The Next.

You Get All This And More...

Fly Model Rocketry's Largest Scale Space Shuttle Orbiter!

SKILL LEVEL 2

NASA SPACE SHUTTLE ORBITER

Model Rocketry Outfit Includes:

- Dramatic 1/87th scale (H.O. Scale) NASA Space Shuttle with revolutionary new "SkyLite"™ foam skin plastic construction. Easily assembled with molded plastic nose cone, vertical stabilizer fin, rear fuselage, and engine nozzle/diffuser which removes for flight. Delivers spectacular flights over 400' and returns to Earth via huge 18" recovery parachute. Also features realistic kit decals and quick-release engine mount. (See page 19 for more details.)
- Big Foot Launch Control System (see page 55) with giant "two-foot-print" for maximum launch pad stability. Futuristic launch controller features safety key, arming light, and ignition button. Powered by four inexpensive "D" size alkaline batteries - not included.
- Flight Pak with two B4-2 and one C6-3 high performance model rocket engines, parachute recovery wadding & Solar Igniters.

Plus
the Alpha
Book of Model
Rocketry.

Recommended
Engines:

B4-2 (First Flight) B6-2
C6-3 C6-3

Ship. wt. - 3 lbs.
Cat. No. 1425

Features NEW
"SkyLite"™ foam skin
plastic parts for easy
quick assembly.
